COLLECTION MAORI

Self-expression through SYMBOLISM

The collection was born from impressions of New Zealand and the cultural symbolism of the Maori people. At the heart of the collection are three meaningful symbols: Hei Matau, Koru and Pikorua. The collection also includes the image of the kiwi - a traditional symbol of New Zealand, interpreted through contemporary jewelry design and enamel.

COLLECTION GONDOLA

Self-expression through VARIABILITY

Jewelry inspired by Venice, its movement and its iconic gondola. The Gondola collection transforms the distinctive geometry of the Venetian gondola's ferro di prua into contemporary jewelry. Its sculptural silhouette echoes the structure of Venice - its districts, canals and architectural rhythm - while each line explores a different fragment of this iconic form.

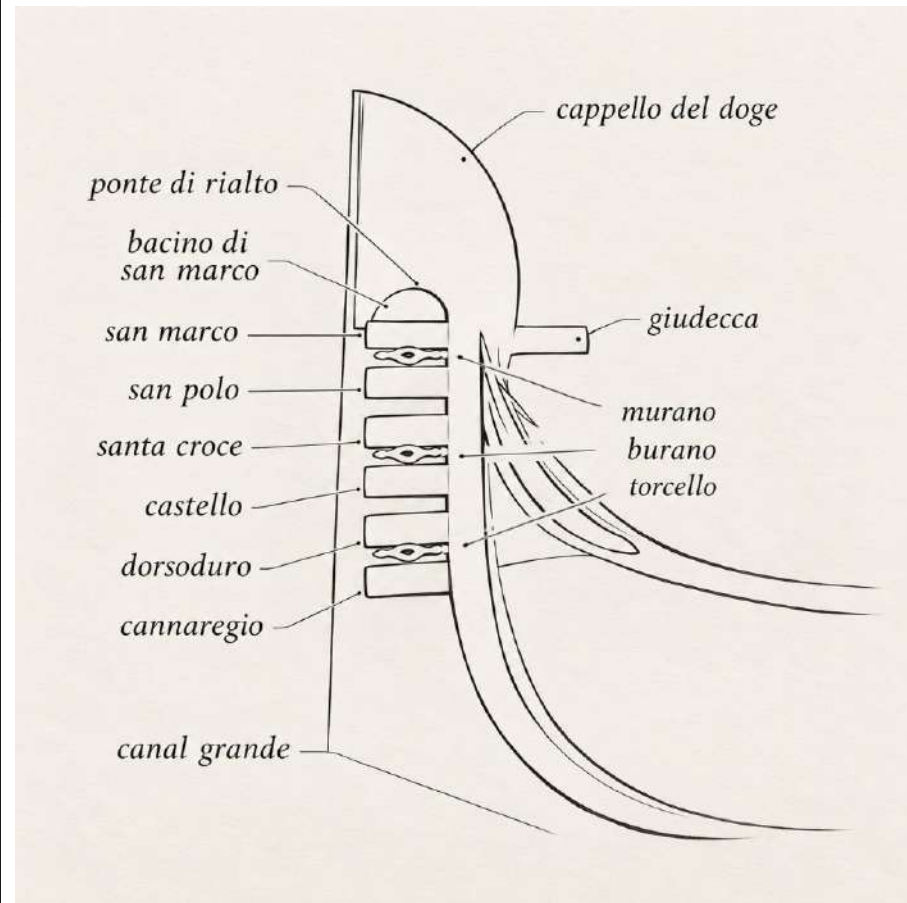

Seven lines reinterpret seven elements of the ferro, creating a collection where symbolism, geometry and self-expression come together in wearable forms.
